Gold & Critical Mineral Discovery Potential

WITH CASH FLOW STRATEGY

- **Disciplined Capital Structure**
- **Cash-Flow Growth Funding Exploration**
- **High-Value Gold & Critical Mineral Discovery Potential**

"We seek to deliver outstanding returns for our shareholders with large-scale discovery of separate gold and critical mineral deposits on the company's 100% owned Ballarat Gold-Copper Project located in the heart of the White Gold District of the Yukon Territory, Canada.

We are also developing a profitable cash flow business with a view to minimizing share issuance and shareholder dilution. This strategy is designed to achieve the maximum possible share price re-rating, with successful discovery."

— Christopher Berlet, B.A.Sc. (Mining), CFA — CEO & Director

MAJOR INVESTMENT TIMELINE

- 2025 (Sep.) **Talamore Mining Corp.** acquires Coffee Project
- 2024 (Jan.) **Rio Tinto Canada Inc.** increases investment and pro-rata interest in Western Copper & Gold (TSX: WRN)
- 2023 (Nov.) **Agnico Eagle Mines Ltd.** maintains 19.9% interest in White Gold Corp.
- 2023 (Mar.) **Mitsubishi Materials Corporation** invests in Western Copper & Gold (~\$21.3M CAD)
- 2021 (May) **Rio Tinto Canada Inc.** invests in Western Copper & Gold (TSX: WRN) (~\$25.6M CAD)
- 2019 (Oct.) **Newmont Corp.** acquires Dan Man Claims
- 2016 (May) **Goldcorp Inc.** acquires Kaminak Gold Corp. (~\$520M CAD)

"Stakeholder has sizeable discovery potential for both gold and critical minerals."

"The Skye Gold Zone is evidenced over 3.2 km in two sub-parallel gold anomalous structures. In the context of regional discoveries this is a considerable strike extent. The East Gold Zone is located 1.5 km to the east of this and may be related geologically, which provides considerable combined scale potential."

"The Loki Critical Mineral Zone is an ultramafic intrusive exploration discovery target located south and southeast of the Skye Gold Zone, also fully contained within company claims."

"Gold (Coffee Deposit) and Copper (Casino Deposit) discoveries nearby have attracted some of the world's largest mining companies to the immediate vicinity."

— Christopher Berlet, B.A.Sc. (Mining), CFA — CEO & Director

Ballarat Gold-Copper Project — Target Zones

Skye Gold Zone

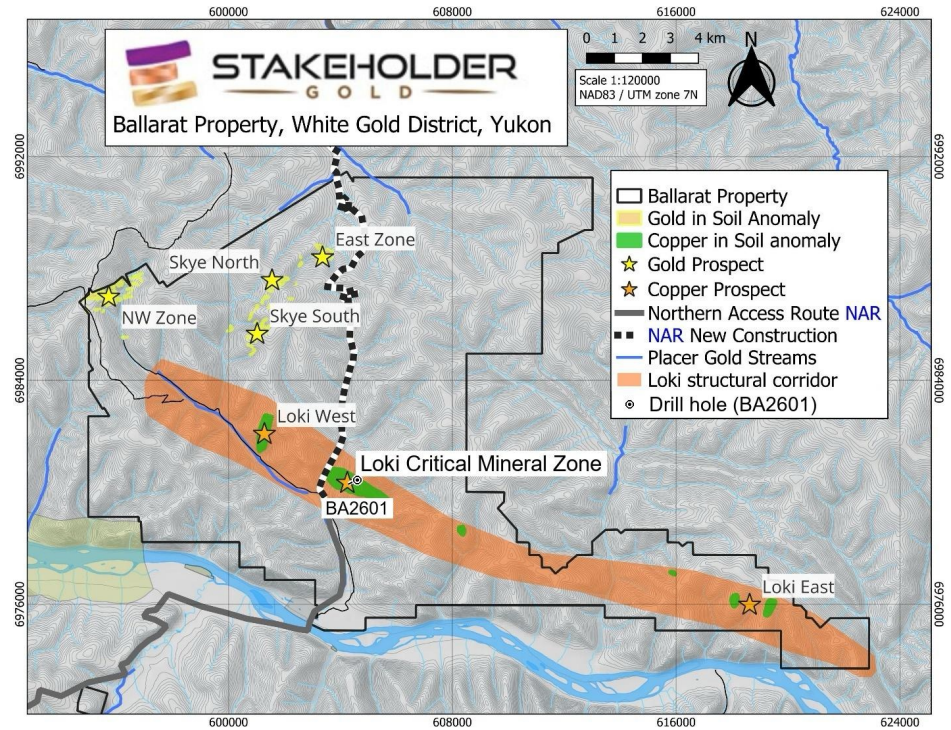

3.2 km strike extent · Open to the southwest · 2 sub-parallel structures

East Gold Zone

2 km east of Skye · Possibly related · Scale & size potential

Loki Critical Mineral Zone

Ultramafic intrusive · Large structure > 35 km · Loki, Loki West, Loki East ·
 Cu, Co, Ni, Pt, Pd · Cobalt & nickel with copper · Platinum with palladium

About Stakeholder Gold

TIGHT CAPITAL STRUCTURE WITH SIGNIFICANT DISCOVERY POTENTIAL PORTENDS MEANINGFUL REVALUATION.

Profitable Stone Business

- 2021–2025 grew business to 3 high-margin, profitable exotic stone quarries
- 2026 expansion from 3 to 5 operating quarries
- Cash flow from quarries permits maintenance of a tight capital structure

Significant Gold and Critical Mineral Discovery Potential

- Significant gold and critical mineral discovery potential, confirmed drilling 2026
- Company claims surrounded by mining company majors
- 20 km of Coffee Mine's Northern Access Road being built directly through company claims
